

1602 Essentia

Surgical Table

Providing Essential Needs at a High Value

The 1602 Essentia provides exclusive top rotation in a streamlined design. Achieve surgical and imaging access with its 180-degree rotation similar to our specialty tables at an impressive value. The 1602 Essentia is designed for performance and helps any operating room or surgery center manage more procedures with one economical table.

Exceptional Imaging Efficiency

- Achieve extensive imaging access at the head and foot end of the table
- Easily permit rotational access by a turn of the handle
- Simple rotation toward the C-arm station at the foot end of the table

Simple Surgical Positioning

- Great capacity to handle increased specialty cases
- Seamless integration with accessories and imaging equipment
- Ready to perform for a wide range of patients and procedures

Reliability and Versatility

- Electro hydraulic cylinders for quiet and smooth operation
- Battery powered backup in case of power loss
- One-touch Pendant Control for simple maneuvering
